Most gloves are made with six separate lacing sections: webbing, fingers, pocket, heel, thumb, and small finger. This pack contains enough lace to completely re-lace most gloves. Regular $\frac{3}{6}$ lace is standard in most sections; the wider $\frac{1}{4}$ lace is excellent for added durability along the top of the fingers or to strengthen the webbing.

EACH GLOVE RE-LACE PACK CONTAINS

WASHING GUIDE

DO WASH UNIFORMS PRIOR TO FIRST USE AND IMMEDIATELY AFTER EACH USE.

Naturally occurring PH levels in sweat may cause dye migration in first use. We recommend a detergent similar to Tide™ for cold water to help decrease the chance of this happening. Prior to washing in cool water, turning the garments inside out will help preserve Twill, Perma-Print®, and Embroidery. Clasping Velcro® prior to washing may help prevent snagging or picking.

DO NOT WASH UNIFORMS WITH OTHER ITEMS. Bleeding may occur.

DO NOT USE BLEACH. Bleach will deteriorate fabric fibers and may cause color loss.

DO NOT OVERLOAD WASHER OR DRYER. Hang dry is recommended for best results. In the dryer, overloading may cause the uniforms to stick together, especially those with Perma-Print® ink. Remove garments immediately after both wash and dry cycles. To avoid static and lint build-up, use an anti-static agent such as Bounce® Dryer Sheets.

DO NOT EXPOSE UNIFORMS TO HIGH HEAT. Excessive heat is the enemy of your uniform. Heat presses, ironing, dry cleaning, or heat transfers may cause dye migration and may break down fabric fibers. Also excessive heat, especially in dryers, can cause shrinkage above normal tolerances, cause Perma-Print® ink to crack, and Twill to wrinkle. If you use a dryer, please use a "damp dry" or "air dry" setting.

DO STORE IN A DRY, ROOM TEMPERATURE AREA, AWAY FROM DIRECT SUNLIGHT.

Excessive sunlight may cause discoloration.

Heavily soiled garments (grass, dirt, clay mud), pre-treatment is recommended

- Spray on products such as Spray'n Wash®, Shout®, or ESPRO® cleaner have been tested with positive results.
- Products such as Stick Stain® or Shout Gel® can be used for stubborn stains.
- For blood stains, it is best to rinse in room temperature water as soon as possible, and if necessary, soak in room temperature water before washing. One of the above pretreatments can also be used, or an oxygen based laundry booster such as Oxi Clean® can also be used.
- For ink stains, use hair spray as soon as possible. Delaying the application of hair spray may decrease results. Spray on stain and rub until the ink is gone. Wash as normal.
